

PRE-SCREENING TOOL FOR SCHOOL ATTENDANCE

Students should review the following questions before attending school **every** day:

- Within the past 24 hours have you had a fever or taken fever reducing medication?
- Do you feel sick, had vomiting/diarrhea, fever, sore throat, new cough, or felt unwell*?
- Have you been told to stay home and isolate/quarantine due to COVID-19 exposure?

*COVID symptoms may include:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Stay home with any YES response to the questions above.

When symptoms are evident in the daily screening before coming to school, the student must stay home. Parents will contact their school nurse to report the symptoms. We also strongly suggest that the parent contacts his/her primary care provider(PCP) and that the student is tested for COVID.

If a student arrives at school sick and/or becomes sick during the day, and is suspected of COVID symptoms while at school, the nurse will be contacted and the student must be sent to the Medical Isolation Room. The nurse will evaluate them and determine if he/she must be sent home immediately. We also strongly suggest that the parent contacts his/her PCP and the student is tested for COVID.
